

Plant for the recovery of liquid argon from ammonia synthesis purge gas.

Client	Krishak Bharati Cooperative Limited (KRIBHCO)
Location	Hazira (Surat, state of Gujarat)/India
Process	Cryogenic separation with cold nitrogen-cycle
Capacity	Purge gas 7,000 Nm ³ /h Liquid argon 961 Nm ³ /h
Purity	Argon 99.9995 vol % (5 ppmv impurity)
Scope of work	Basic and detail engineering, procurement, erection and commissioning
Start-up	2007

Linde AG
