

Solutions for the natural gas processing industry

NATURAL GAS PROCESSING

Experience LPP is a company with a long and strong experience in natural gas processing. As a subsidiary of The Linde Group, we are a totally integrated engineering, fabrication, and construction company. LPP has successfully completed more than 100 gas processing plants worldwide.

Advantages We provide our clients with a complete single-source SOLUTION, including process design, detail design, equipment, and materials procurement, shop fabrication, construction services, commissioning, and startup.

- Over 40 Years of Experience
- Proven Technologies
- Optimum Construction Execution-Modular/On-Site
- Reduced Capital Cost
- Flexible Schedules
- ISO 9001 Certified
- Single-source SOLUTION

Technology LPP utilizes proven licensed technology to meet the gas processing requirements of today and tomorrow. Our engineering staff select and employ various technologies to achieve the best overall solution to meet our client's specific needs.

Some of the areas that can be optimized by our multi-discipline engineering and design staff include:

- Gas Treating
- Ethane & Propane Recovery
- LNG
- Hydrocarbon Dew Point Control
- NGL Product Treating
- NGL Product Fractionation
- Sulfur Recovery
- Nitrogen Rejection
- Carbon Capture & Sequestration
- NGL Product Storage
- Compression
- Schedule Optimization
- Capital/Operating Cost Reduction
